

Managing COPD?

There could be a better way

- Is your COPD register accurate ...
... have you found your 'missing millions'?
- Prioritise patients for review using 'best practice' clinical markers
- Potential to reduce exacerbations & unplanned admissions ...
... find sub-optimally treated patients at a glance
- Medication reviews ...
... quickly assess whether you are working to best practice guidelines
- Quick, pain free audits ...
... produce your own reports in minutes
- Improve data quality and save time on administration

*"Very easy and
straight forward tool
to use. Displayed clear
results."
"... the tool gives us
data in seconds"*

Practice Manager

*Over 4000 installations nationwide and growing
Dedicated tools to optimise administrative and clinical activity*
